Mounting

"I love this fixture because...it's so many fixtures in one. The solid housing with the weatherproof lens. Clean simple lines....the best part is, if the application changes where you specified the product, or if you made a mistake (which we all do time to time) you can swap out the optics or turn up/down on the 'adjust-e-lume®' to get the lighting you need. My quote is "Nite Star™, So Bright what do you want to light up tonight!"

Craig Barnhart, H. F. Lenz Company, BKU Fall 2012
